

MorPhoVa workshop

17 janvier 2020, Bâtiment Censive, C248

The **MorPhoVa workshop** brings together researchers whose work examines variation in phonological systems and phenomena at the morpho-phonology interface. Speakers will discuss variation (geographical, generational, etc.) in Breton, Friulian, Italo-Roman, Arabic, Gallo, Dutch and others. We will compare various theoretical models and discuss future goals for projects aiming to capture vanishing and burgeoning variation.

All are welcome to attend; to register, please contact Connor Youngberg (connor.youngberg@univ-nantes.fr). N.B. L'événement est bilingue (français/anglais) / This event will be bilingual (French/English). Certaines présentations seront diffusées en direct et archivées sur StreamGram! <https://sites.google.com/view/streamgram>

Program / Programme

09:30 – 09:45

Connor Youngberg, LLING (UMR 6310) & Université de Nantes.
'Introduction : Quelques remarques sur les études sur la variation'

09:45 – 10:45

Diana Passino, BCL (UMR 7320) & Université de Nice Sophia Antipolis
'Issues in the differentiation of Italo-Romance vowel systems : The case of Eastern Abruzzese.'

10:50 – 11:50

Nicola Lampitelli, LLL (UMR 7270) & Université de Tours, joint work with Francesc Torres-Tamarit (SFL, UMR 7023) and **Paolo Roseano** (Univ. de Barcelona, Univ. of South Africa)
'Vowel length in Friulian verbs : a case of non-linear morphology in Romance'

11:50 – 13:40 - Pause déjeuner

13:40 – 14:30

Amazigh Bedar & Lucie Quellec, LLING (UMR 6310) & Université de Nantes
'The internal structure of /l/ in Taqbaylit'

14:35 – 15:35

Holly Kennard, University of Oxford
'Variation in Breton initial consonant mutation : cross-generational insights'

15:40 – 16:40

Edoardo Cavirani, KU Leuven
'Ageing vowels : computation, representation & variation'

16:40 – 17:00
